

THE INTERIOR JOURNAL

Established 1860—59th Year. No. 7

The Interior Journal, Stanford, Kentucky, Tuesday, January 22, 1918

Tuesdays and Fridays

NEWS FROM OLD SUBSCRIBER

Guilford, Mo., Jan. 11.—Inclosed find \$1.60 to advance my subscription another year on the Journal. It has kept me in touch with my old schoolmates, associates and neighbors of more than fifty years ago. While there are but few left of those who were some left, as I learn from reading the Journal. One in particular, Cousin Percy Ann Hooker, I think that was her name. Any way she is the widow of Cousin Dick Hooker. When I read that item it carried me back to my childhood days, which made me feel like exclaiming in the language of another: "Turn back, turn back, Oh time in your flight, make me a boy again just for tonight." Cousin Dick and wife used to visit Uncle Midgill and Aunt Amanda. Those were my father's and mother's names. When Cousin Dick and wife were young married folks, I could tell you of a good many happenings and besides the day dreams I had as young as I was I am a strong believer in those air castles—some would term them—but I give them, I think a more appropriate name and call them day dreams. I hardly think it necessary to speak of the war, as I presume it is about the same the world over. We are having and have had some pretty cold weather. December was unusually cold for that month. Quite a blizzard came over the ten night before last and continued all day yesterday and a greater part of last night. In the meantime four or five inches of snow fell, which constitutes the most snow we have had this winter, which the wheat raises recent as a great blessing. There was a large acreage of wheat sown this last fall. It has been very dry all fall. Wheat started in the winter in rather delicate condition. The thermometer registered 15 below this morning. I will give you some figures on the results of Nodaway county crops for 1917: According to statistics filed the corn, oats and hay raised in this county were worth at current market prices the huge total of \$10,894,105—caused within a radius of twenty miles of Marysville, the county seat. She had in her crib this fall 6,235,694 bushels of corn, its market value is \$7,791,405. Nodaway is the banner corn growing county in the state, according to statistics compiled by Secretary, Joel Mayes, of the State Board of Agriculture. Corn at the average price of \$1.11 per bushel is worth \$298,741,775. Now don't take this as a fact story for it is true. C. D. doesn't belong to the windy class. I am coming back some time if the Lord is willing. When I do you will find out that I am all wool and a yard wide regards to all old Kentucky friends, yourself included.

DON'T SCOLD MOTHER! THE CROSS CHILD IS BILIOUS, FEVERISH

Look At Tongue! If Coated, Clean Little Stomach, Liver, Bowels

Don't scold your fretful, peevish child. See if tongue is coated: this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, does not eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow. Get the genuine. Ask druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Read back with contempt any other fig syrup.

PHOTOGRAPH LEADS TO ARREST

The photograph of a Middleboro girl led to the arrest of a young man charged with entering the depot at Walslot, near Middleboro, and stealing a quantity of whisky. The picture was found by the agent, Miss Blanche Burrows, who turned it over to detectives and they located the girl in Middleboro, who gave the name of a young man, whom she gave the picture and he was arrested and is being held pending his examining trial at the county court at Pineville.

PREFERS CHAMBERLAIN'S

"In the course of a conversation with Chamberlain Medicine Co.'s representative today, we had occasion to discuss in a general way the merits of their different preparations. At his suggestion I take pleasure in expressing my estimation of Chamberlain's Cough Remedy. I have a family of six children and have used this remedy in my home for years. I consider it the only cough remedy on the market, as I have tried nearly all kinds."—Earl C. Ross, Publisher Hamilton County Republican-News, Syracuse, Kan.

ONLY ONE CAN DRESS WELL

"Her husband must have a big salary." "What makes you think so?" "The way she dresses." "Well, go now and take a look at the way her husband dresses and you'll change your mind."

There was a death and a birth in the home of Emanuel Bryan at New Haven Saturday night. Just as death claimed a 16-month-old son the stork brought another.

DOINGS THE COUNTRY OVER

Frank Martin, pupil, and Miss Ava Yates, his teacher, eloped from Carlisle and were made husband and wife.

Pennsylvania's coal production in 1917 reached the enormous total of 267,735,001 net tons, breaking all former records.

The depositors of the George Alexander Bank at Paris have received 62 1/2 per cent. of the money they had in that institution when it went to the wall.

Theaters and other places of amusement won their fight for an amendment to Dr. Garfield's closing order and got permission to close on Tuesdays instead of Mondays.

Treasury officials soon will ask Congress to authorize the melting of 150,000,000 silver dollars now stored in the Treasury to supply silver for export to America's allies.

With a membership of 150,000 men in train and yard service, the Brotherhood of Railway Trainmen has announced that more than 5,000 members of the organization are serving in the military forces of the nation.

Acting upon the request of the County Fuel Committee the Board of Education of Jefferson county decided to close the public schools for one week, the time lost to be made up by extension of the school term in June.

William Callahan and John Cady, young men of Whitesburg, fought a duel on the Cumberland River, near the Letcher-Barlow border. They fired simultaneously and both dropped dead. A woman is said to have been the cause of the trouble. Callahan was from Letcher county.

Arrangements for the early transportation of 50,000 common laborers to the United States from Porto Rico are being made by the Employment Service of the Department of Labor. As soon as tonnage is available 50,000 others will be brought from Porto Rico and the Virgin Islands.

Chief of Police F. E. Messer, of Hazard, 51 years old, was stabbed in the neck while making an arrest, and is lying at his home in a critical condition. William Summers, mine foreman, of Walker's Branch mine, is in jail suffering from a bullet wound through the leg, held for stabbing Messer.

At a meeting of executive officers of the Southern Commercial Congress Judge Robert W. Bingham, of Louisville, was elected president of the congress to succeed Senator Duncan U. Fletcher, of Florida. Senator Fletcher now is completing his seventh year as president of the congress. He was first elected at Atlanta.

Judge Ben Landsey, of Danver, has been offered a commission to go to France and England as a representative of the Committee on Public Information to study war conditions among women and children. Judge Landsey has said he cannot definitely accept the mission until he receives leave of absence from his juvenile work in Danver.

Gen. von Stein, Prussian Minister of War, in a newspaper interview, is quoted as declaring that Germany is ill prepared to meet America as a decisive factor, but says much depends upon what the American engineers can do, and still more depends upon whether efficient, experienced crews can be obtained by them.

A delegation of workers from the meat packing plants at Chicago called on President Wilson and urged that the Government take over the meat packing industry of the country. Secretary Baker, Secretary Wilson and Samuel Campers were called in to the conference. The union workers contend it is essential for the Government to control the industry because of the large number of aliens among their fellow employees.

Individuals and business organizations must report to revenue collectors each payment of \$800 or more made during 1917 to any person or corporation. Officials estimate that between 12,000,000 and 20,000,000 returns must be made under this regulation, which reduces the provision of the old law that income taxes were to be withheld at the source, and will furnish the Government information for checking up income tax returns.

Great improvement in fuel famine conditions was reported to Fuel Administrator Garfield by State Fuel Administrator in twenty-eight States east of the Mississippi. It was declared that a steady flow of coal is going forward into the districts where it is most needed, and that the people were "getting warm again." Director of Railroads McAdoo issued an order placing an embargo on the use of open-top cars except for fuel. Work of hunkering ships in New York harbor will go forward.

With the election in England imminent, a victory for the Labor party is freely predicted. The Laborites are expected to control the majority of seats in the House of Commons and one of the most important posts in the cabinet. A conference has been called to meet in Nottingham to frame proposed legislation for after-the-war conditions. Among the proposed measures are the use of private surplus wealth for common good and the nationalization of lands, railroads and all public utilities.

FARMERS CLEAR UP PIKE

The farmers residing along the Hustonville pike south of Danville employed twenty men yesterday and had the snow cleared from the pike. Traffic has been resumed. For almost a week traffic was practically suspended on this road. The Shakerstown and Stanford pikes have also been in a bad fix. The fiscal courts in other counties are having the roads cleared, but the Boyle Fiscal Court cannot be induced to make a move.—Advocate.

IN NEIGHBORING COUNTIES

Centre College defeated State 29 to 21 at basket ball at Danville last night.

Mrs. Margaret Wilmore, a well-known and aged lady of Richmond, is dead after a protracted illness.

Mrs. David Lynn is dead at Danville. Besides her husband she leaves six children including a five-months-old baby.

Henry Hudson and Miss Mabel Crawford eloped from Somerset to Winfield, Tenn., and were united in marriage.

The Somerset Board of Education decided to hold school on Saturdays or six days a week, in order to shorten the term.

The handsome home of Walter Q. Parks, near Richmond, was destroyed by fire. Most of the contents went up in the flames.

The Kentucky Producers Company brought in a 25-barrel oil well on the Willard Chestnut farm, four miles Southeast of Mt. Vernon.

Miss Ella Gooch will leave Sunday for Washington, where she has accepted a position in the War Department.—Somerset Journal.

Last Saturday the Cumberland River was frozen over at the forks at Burnside and river traffic has been almost at a standstill since.

Billy Stout, of Hanville, died in the Lexington Asylum, where he had been a few days before. He had been suffering from mental troubles for a long time.

H. C. Powell, the well known Perryville citizen, will be at the head of a wholesale grocery which will shortly be opened at Hazard and known as the Powell-Hackney Grocery Company.

Things seem to be coming George Cruse's way at Somerset. He has recently been installed as mayor of his city and now the news comes that a ten-pound boy has arrived at his home to further bless his married life.

A man wearing a pair of handcuffs, and a badly lacerated hand and nearly frozen walked into the office of Dr. Sparrow at Burnside, and asked that his hand be dressed. Questioned by the physician he said that his name was Paul Pritchard, that he had been arrested in Cincinnati and was being taken by an officer to Rockville, Ga., when he jumped through a window of a moving train. A dispatch from Rockville received at Burnside directed the authorities to hold the man.

MAN WHO FEARED WANT

The following sad story is sent out from Lexington about a man who many of the Interior Journal readers had seen in Danville as he took his morning walks, which he never missed in it mattered not whether the weather was good or bad or if he was well or ill. "Haunted by fear through life that the fortune of \$75,000 left him by his father would not suffice to keep him in his old age, William R. Stout, 60 years old, of Danville, and a graduate of Centre College, is dead at the Eastern State Hospital. Physicians say his death was due to loss of vitality caused by insufficient nutrition. One of Stout's eccentricities was to deny himself food so that the income of his fortune might not be impaired. Friends found him starving and almost frozen in the snow a week ago and brought him to the hospital. His only known relative is a brother, James, a patient in the asylum here."

ANOTHER LEMON FOR TAYLOR

The Courier-Journal, after reading what J. Boyce Taylor, of Murray, had to say against Red Cross and Y. M. C. A. work, hands him the following: "These quotations reveal him as a contemptible little hypocrite and silly fool who has persistently used his position in a great church to instigate treason against the country that shelters him and to which he professes allegiance. The most charitable explanation of his conduct is to assume that he hasn't sense enough to realize its gravity. That, however, is no reason for failure by the proper authorities to put a stop to it. The Courier-Journal understands that he is under surveillance by the Government; he ought to be under duress by the Government. And he ought to be kicked out of the ministry by the church whose cloak he uses to ply his infamous campaign against his country."

MAY HURRY UP OTHERS

The fact that Lieut. Gov. James D. Black, as an avowed candidate for the Democratic nomination for Governor, is putting in his best licks while incidentally holding down the job of president of the State Senate, is calculated to bring other gubernatorial aspirants to the front while the Legislature is in session. In this respect, however, Gov. Black has very little on Judge John D. Carroll, of the Court of Appeals, often mentioned in connection with the nomination for Governor, who is on the ground himself and perfectly at home in a gathering of solons, with whom he is very popular. Judge Carroll has not said the word, but despite this he has a number of strong boosters among the members of the General Assembly.—Louisville Times.

NOS. 9 AND 10 MAY STOP

All sorts of reports are being heard about the running of passenger trains since the government took charge of them, but the most persistent rumor is that Nos. 9 and 10, what is known here as the morning and evening K. C., will be discontinued. Agent Rice nor any of his assistants know anything about the annulment of the trains and it is generally hoped that they will be continued.

Lawton, Pa., has a woman hunter to be proud of. She is Mrs. G. S. Miller, and last season on Shade Mountain, near Peru, Juniata county, she killed a turkey vulture weighing 19 pounds.

WILL JOIN AVIATION CORPS

James C. Cooper, son of Mr. and Mrs. George H. Cooper, was yesterday accepted by the war authorities for service in the aviation branch and on Saturday he will go to Washington City and report for duty. Mr. Cooper has for the last several years been a student in Centre College and was to have graduated in June, but whether or not he will be deprived of his diploma by going to war will be seen. His many friends hope very much that he will not and Dr. Garfield, president of Centre, says if he can possibly grant the "scholarship" that he will do so, for Mr. Cooper has been one of the very best students in his institution and has all the credits necessary so far. Mr. Cooper went to Louisville last week and was examined by the board of that city and was found to be light, otherwise he was in splendid condition. The facts were wired to Washington City and soon a dispatch came: "Waive the weight and accept Cooper." He immediately showed his parents here of the result and will come today or tomorrow from his college and make preparations to go to Washington City. His brother, Clarence Cooper, was examined by the same board, but was found to be "Cincinnati" to appear before the board there and he also passed and will soon take the oath of allegiance. He will also enter the aviation department. John Oswald Field, a brother-in-law, was also successful in passing, but he will have to undergo a slight operation before he will be able to begin his duties. He has an index finger that is stiff from an accident and it will be necessary to loosen some of the ligaments of the member that he may be thoroughly fit for service. He will have this done at once. Mr. Field will also become an aviator, which will make the Cooper family very well represented in that branch of Uncle Sam's army that will eventually put to flight the contemptible Kaiser and his cohorts.

MISS LULA EDRINGTON DEAD

Miss Lula Edrington died at her home at Hustonville at 2 o'clock Monday afternoon after a protracted illness of a combination of troubles and was buried in Hustonville Cemetery at 2 this afternoon. She was a daughter of Mr. R. B. Edrington, a well-known and good citizen of Hustonville and lived with him. Besides the father Miss Edrington leaves a brother, Tom Edrington, now located at Aurora, Colorado. On account of the severe weather and the congestion of trains he did not make an effort to come home for the burial. Miss Lula was also very generally loved and was an energetic in the Hustonville Telephone Exchange for fully 15 years and there was never a better nor more accommodating one. Patient, painstaking, pleasing and efficient, it seemed to give her pleasure to wait on the public, and if she ever tired in her work she would find evidence of it. She was a splendid friend of this paper and the writer regrets more deeply than he can express in cold type the loss of such a friend. May the soil lie gently on the grave of the gentle woman who did all in her power to make the world better by having lived in it. Dr. A. H. Roush, her pastor, made appropriate remarks at her funeral, which was largely attended, notwithstanding the cold weather and deep snow.

SOMERSET AFTER TODAY

Deputy Collector H. Rowan Snoddy, who has been headquartered at the First National Bank since the 9th, interrogating and taking the lists of those who pay income tax, will go to Somerset Wednesday and open an income tax office in the Newtonian Hotel, where he will remain until Feb. 9th. A large number of Lincoln county people will help Uncle Sam out with the tax and the best part about it is they will all do it cheerfully. Mr. Snoddy is very complimentary of his home people, who have voluntarily sought him to either pay their income tax or to ascertain whether or not they are liable.

OWL KILLS LITTLE CHICKENS

An old-fashioned, common, every day "screech" owl killed six chickens for Mrs. F. E. Cummins, of Procherville Sunday night. She had eight chicks about the size of partridges and had cared for them something like she does her children during the cold spell. Sunday night she packed them away with unusual care, but an owl got in its work and six little heads had been removed when she went to see about them Monday morning. The owl was caught in the coop and her husband killed it post haste.

PAID SEVENTY-EIGHT PER CENT

The business of the State Bank & Trust Co., which was taken over by the First National Bank in April, 1915, has been wound up by Social Banking Commissioner H. C. Baughman, the present sheriff. The last payment is being made now on the stock and each shareholder receives 78 per cent. The depositors were paid in full.

CISTERN DRY IN WINTER TIME

Mr. W. L. Neal, of Moreland told the I. J. that his cistern is almost dry and the one of Dr. W. J. Childress, of Hustonville, has gone bone-dry. The unusual scant rainfall last fall and this winter is causing considerable inconvenience to others as well as owners of cisterns.

STOMACH TROUBLES

If you have trouble with your stomach you should try Chamberlain's Tablets. So many have been restored to health by the use of these tablets and their cost is so little, 25 cents, that it is worth while to give them a trial.

MRS. EMBRY'S FIVE HUNDRED

One of the most delightful as well as enjoyable entertainments that has been given in Stanford in a long time was the Five Hundred party given Mrs. Robert Henton Woods on Saturday afternoon by her sister, Mrs. Samuel J. Embry, Jr. Forty or more guests responded to the invitations issued and from 2 until 5 o'clock the Embry home was a scene of beauty and merriment. The magnificent old home was tastefully decorated for the occasion and a lunch had been prepared that would have tempted the appetite of any epicure. There were five tables of players and the game of Five Hundred were heartily entered into. Two prizes were awarded the successful players and there was a guest prize, the latter going to the bride, Mrs. Woods. Mrs. S. M. Allen, of Millersburg, won one of the prizes and Mrs. A. L. Pence the other. They were all hand-made handkerchiefs and were beautiful. Those who did not take part in the game occupied another room, which was also very prettily decorated and where anais and roses were used in profusion. The lunch consisted of substantial and ices and cake and was as delightful to the taste as it was beautiful to the eye. The evening was most enjoyably spent, the charming hostess doing all in her power to make all feel that it was good to be in her hospitable home.

THREE YEARS' GOOD SERVICE

Mr. Ben Jennings rounded out his third year as foreman of this office last week and during that time he has never let job printing or other work constrict to the extent that he was not able to get it out on time. More than once he has worked all night in order that orders may be filled promptly. Jennings is one of those fellows who never gets tired and he will average working at night at least twice a week, and always on his own volition, that things be kept running smoothly. There are few, if any, finer printers than he is, and whether he does not know about a Mercurius Linotype isn't worth knowing. During the years of his service here he has had to call on no outsiders for help when the machinery did not perform its functions as it should, but he has just kept working the proposition out in his own mind until he masters the situation. Mr. Jennings has worked in much bigger offices than the Interior Journal's and was foreman of the Times-Journal, and was in charge of the "Leader" office at Lexington, but he professes the smaller towns and like all others who come to Stanford, thinks it the best place on the map.

MONDAY WAS A QUIET DAY

Stanford merchants and others observed the orders given out by Dr. Garfield and many of the business houses were closed as tight as clams Monday. The banks were open, the grocery stores remained open until noon and the drug stores were open only for the sale of flowers and chemicals. Those and the Interior Journal were about the only concerns that did business as usual. The management of this paper was not certain as to whether it had the right to remain open but was informed by Fuel Administrator Briest that it might keep open shop. Those who were called on to close did so cheerfully and with the right spirit. It would be hard to say how much coal was conserved by the order here, but he that as it may the Stanford people, as usual, did their bit when asked so to do.

THREE SALES IN THREE DAYS

Hughes & McCarty are not letting the severe cold weather interfere with their real estate business, but on the contrary are making a record number of sales, having made three during the last three days of the week just ended. They sold to A. C. and W. B. Coffey 82 acres of the John L. Beck farm near McKimney at a good price; for Dan Traylor they sold the J. Nevin Carter home, out on the Danville pike, to R. B. Reynolds, a postal clerk on the L. & N., who has been living in Stanford for some months, for \$5,500, and to J. M. Warfield they sold 34 1/2 acres of what is known as the Baugh farm, near Highland, for \$1,250.

JESSE COOK BACK FROM CUBA

Jesse F. Cook, one of Lincoln Co.'s boys, who has made a pronounced success of life, has just returned from Cuba, where he has been since October disposing of a shipment of saddle horses and where he has opened a branch stable. Since removing to Fayette Mr. Cook has made a big reputation and lots of money in the horse and jack business and his friends in his old home feel proud of him.

CROWDED OUT LAST ISSUE

On account of a rush of advertisements at a late hour the statements of the First National Bank, of this city, and the National Bank, of Hustonville, were crowded out of our Friday's paper, but they appear today all right. The statements were sent in in abundant time and if there is any blame attached, lay is on the I. J.

YOU CAN'T BURN WOOD

Under the order of Fuel Administrator Garfield, establishments which are embraced in the order cannot use fuel of any sort, save enough to keep their buildings sufficiently heated to prevent damage. Wood is considered a fuel the same as coal and cannot be burned.

STORE YOUR ICE NOW

To conserve the supply of ammonia everybody who has an ice house is asked to fill it with ice and surely there never was a better time for storing it, when it can be gotten in blocks 15 or more inches in thickness.

THE LATEST WAR NEWS

"The people must either go on or go under," was the stirring climax of an address delivered to the Trades Unions of Great Britain by Premier David Lloyd George Friday in London. The Premier's address, followed closely upon the passage by the House of Commons by the Munition Bill which has as its object the raising of more men to strengthen the British fighting forces. The Premier evinced strong distrust of Germany's honesty, reverting several times to the untrustworthiness of her promises and declaring that no peace terms would be recognized by Emperor William Field Marshal von Hindenburg. Gen. von Ludendorff and the other militaristic elements, unless the British had the power to enforce them.

Strict orders have been issued to enlisted men and officers at Camp Zachary Taylor warning them to maintain secrecy of all military activities at the cantonment. The order says: "Grave and avoidable danger to the safety of our forces and the success of our operations is being caused by the giving of information by officers and enlisted men to members of their families, their friends and the public in general."

Examining officers of the new National Army report that approximately 2 per cent. of the drafted men, as they appear in camps, are so seriously defective in mental development that they are either menaces or nuisances in military organizations. As a result of the new psychological test to all enlisted men and newly appointed officers of the army has been ordered by the War Department in an effort to weed out the mentally unfit.

After an adventurous career of nearly three and a half years in fighting and raiding operations in the Black Sea the famous former German cruiser Goeben and Breslau have met their fate at the hands of British warships in a fight at the entrance to the Dardanelles. The Breslau, renamed Midway, was sunk, and the Goeben, rechristened Sultan Yavuz Selim, was beached. The two cruisers escaped into Turkish waters shortly after the outbreak of the war and were purchased by the Turks.

Fresh troubles are reported to have broken out throughout Austria. General strikes have occurred and in Vienna and Neustadt all the war manufacturing plants are reported to have been closed. In these towns 100,000 men are said to have quit their jobs. The movement is political and economic and has as its basis the desire for peace. Anti-Germanism is declared to be especially prevalent throughout the country.

MR. A. J. RICE'S HOME BURNED

The splendid country home of A. J. Rice, near Marcellus, Garrard county, burned at 1:30 Monday afternoon, together with all of the contents save that which was down stairs. The kitchen flue started the fire, which had gotten under such great headway when discovered that any effort to stop the flames would have proven futile. Mr. and Mrs. A. C. Carman, parents of Mrs. Rice were in the home at the time and they lost some of their clothes. They came to Stanford immediately and are now domiciled in the home of Mr. and Mrs. Thomas D. Ends, of Danville avenue. Mr. Carman says the house could not be replaced for less than \$5,000, and that while he is confident his son-in-law had some insurance, he does not know how much.

Fires occur in cold weather as well as at other times and it is a good idea to prepare for them by carrying a policy in a good insurance company. Jesse D. Wearan, the Stanford insurance man, represents some first-class companies. See him today and have him write you a policy before it is too late.

WILL BUILD A PIPE LINE

The Cumberland Pipe Line Company, having confidence in Lincoln county as an oil field, will build a pipe line from the Buck Creek wells to Kings Mountain, a distance of four miles, just as soon as the weather will admit. It was hoped by the company to have the line down by Feb. 15th, but the weather will materially interfere with the work.

JUDGE GOT BUSY EARLY

Lincoln's new County Judge, T. A. Rice, was sworn into office Monday morning, and in a few minutes thereafter a fellow was brought in charged with killing a fox out of season. "Fifteen dollars and costs," quickly announced Judge Rice. That's the way to keep the dockets clear.—Danville Messenger.

RINDA BAUGHMAN FINED

Rinda Baughman, colored, was tried by a jury in Judge R. L. Davidson's court Friday afternoon and fined \$20 for keeping a disorderly house. She promptly paid the fine. The court room was crowded during the trial, which attracted almost as much interest as some murder cases do.

WORTHLESS CURS KILL SHEEP

Mr. W. L. Neal, who was here from Moreland Saturday, told this paper that worthless dogs had killed two and maimed seven or eight sheep for him and that his neighbors, Messrs. R. L. Berry and G. T. Timberlake, had each had a visit from the canines with similar results.

KNITTING PARTY FOR GUEST

Miss Elizabeth Higgins gave a knitting party Saturday afternoon at her home in honor of her guest, Mrs. Carl Ramsey, of Louisville, formerly Miss Frank Waller. A very pleasant afternoon was spent in knitting for the soldiers. A delightful salad course was served.

United States Government War-Savings Stamps

have been substituted for our Christmas Savings Club. When you purchase these stamps you are doing patriotic duty and getting a 4 per cent investment on your savings.

Cherry Bark Cough Syrup

THE HOUSEHOLD COUGH SYRUP
Guaranteed to Relieve Coughs

If it doesn't relieve your cough it won't cost you a cent.

We firmly believe that this cough syrup is the best of the many kinds we carry.

We are so sure that it will give speedy relief that we have no hesitancy whatever in backing it up with a money-back guarantee.

Isn't that fair?
Can you afford to overlook such a generous offer when you are in need of a cough remedy?

Corner Main and Logan Ave., Concrete Store
STANFORD, KENTUCKY

The Interior Journal

E. C. Walton and J. H. Wright

Entered at the postoffice at Stanford, Ky., as second class mail matter.

A bone dry Kentucky in 1920 seems assured. Twenty-six States are already dry and are expected to ratify the national amendment. Kentucky has already done so, being the first wet State to take such action. Nine other wet States are only necessary to the 36 to make the amendment operative, and judging from the signs of the times they will ratify in due season. Of the 120 counties in this State only 11 are wet and some of them only partially, no liquor being allowed to be sold except in their largest cities. It is confidently expected that whisky distilling having been stopped by war conditions, will never be resumed again. And all of us who have felt the curse of an evil which is that continually, say amen and amen.

Fifty years from now the oldest inhabitant will be telling of this spell of cold weather to the surprise of the younger people. It has broken all records and established a new precedent to be talked about as long as those who have suffered it shall live. Since December 5 there has been unbroken cold and snow has covered the ground the whole time. It may prove good for the wheat, but we whose narrows have been in a state of freezing for nearly 50 days are unable to understand that with all our transgressions why we should be punished with weather, war and other calamities all in a bunch.

If some philanthropic fellow will donate a site in Stanford for a sled factory we verily believe that such an enterprise would be launched. Fifty odd days of snow, and the end not yet in sight, has afforded an excellent opportunity for sleighing and many sleighs and sleds have been built and put into service. The Stanford Sled Factory would look good on a big building which could turn out the snow vehicles fast enough to supply the demand and make money for the promoters.

"Persons who stir up animosities or unjustly criticize the Government while the war is going on, are traitors to the nation, whether they know it or not." The or similar words were used by a former president of the United States, William Howard Taft, in an address delivered at Springfield, Illinois, recently. He is right. Every endeavor should be made to cement friendship, rather than discord among Americans in this time of the nation's momentous peril.

An attempt was made in Congress last week to prohibit newspapers from issuing more than 16 pages at one time. It appears to be a case of trying to interfere where there is neither right nor reason, and the Senate also seems to be of that opinion, as only the proposer and three others voted for the proposition. Senators James and Beckham, of course, voted against so silly an effort to curtail private rights.

At the suggestion of Circuit Judge Kerr, of Lexington, Hon. W. F. Blair has introduced a bill to give judges the power to fix penalties, except in capital cases. The jury will only have to decide whether the defendant is guilty and not hang on the amount of punishment. A similar law prevails in the federal courts and is found to prevent many failures of justice.

Think of this item sent from Princeton, this State, when cars are so scarce that coal cannot be moved: Tons of snow have been hauled here over the Illinois Central Railroad and dumped near this place. The snow has been shipped from Chicago, and the railroad company has adopted this method of ridding its terminal at that place of snow.

Billy Sunday, who is holding a meeting in Washington, was invited by the chairman to pray for Congress the other day and the way he awakened the dead bones was a caution. All who have heard the regular chaplain croon out a set and soulless prayer will realize how great the innovation of having a live one appeal to the throne of grace.

The ungodly weather has disclosed many things not previously known. For instance, the news comes from Somerset that the street car service has been suspended by snow for a week. Did you know that Somerset had street car service, or do you know by experience that she has as near next to none as Howling Green and Winchester?

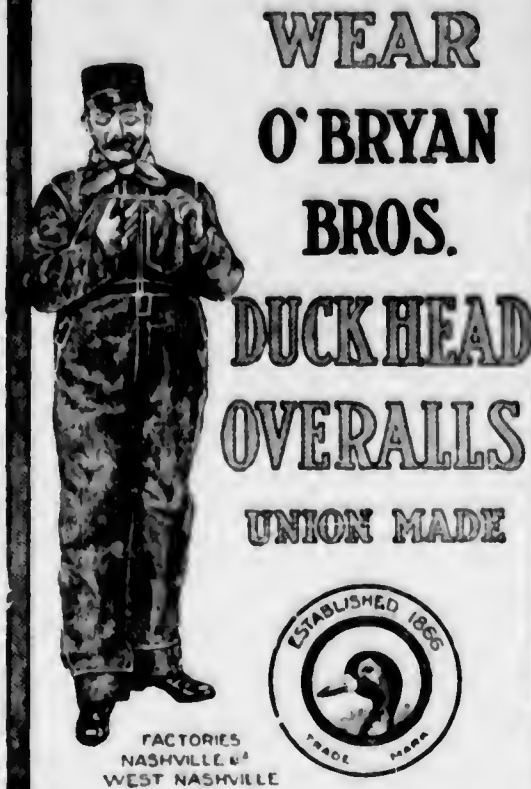

In 1917 the farmers made a splendid response to the country's call for greater food production. In 1918 the need is greater than it was in 1917 and the farmers have again been called on to produce more than they did last year. The tillers of the soil in good old Lincoln will be found in the front ranks, doing "their bit."

The Huntsman bill, making it unlawful for an enemy alien to have in his possession any firearm or explosive of any kind, will be reported favorably by the Senate Committee on Kentucky Statutes. The committee recommended an amendment giving peace officers the right of search and seizure.

Cheer up, there is hope ahead. The Danville Messenger gives the first intimation that the snow is melting when it says that the process is disclosing many leaky roofs in Little Britain. What on earth melts the snow in this frigid weather, Her Landram?

Conversations to the Interior Journal's friend, Joe H. Gibson, of Somerset, who has just been elected to office. He has been made treasurer of his town at the munificent salary of \$5 per month.

Engineer M. J. Earle, Fireman W. J. Harris and four other trainmen were killed in a head-on collision of the C. & O. near Ashland.

McRoberts, Bailey & Rupley

MAIN STREET STANFORD, KY.

Warm Clothing and Rubber Footwear

Now is the time to fortify yourself for cold weather. We have just received some new Kersey Suits, corduroys and extra heavy serges.

We have anything in Rubber Footwear from a boy's sandal to a man's rubber boot.

Flannel shirts, wool sox, heavy underwear and corduroy pants. We can keep you warm at small cost.

Remember the blizzards are coming. Heavy overcoats, rain-coats and slickers.

WITH THE CHURCHES

The Good Shepherd Episcopal church at Lexington was destroyed by fire, entailing a loss of about \$12,000.

The Woman's Missionary Society of the Baptist church will meet with Mrs. Garland Singleton at 2:30 o'clock Friday afternoon.

By a unanimous vote of the congregation, the Baptist church at Harrodsburg resolved to discontinue services until weather conditions and coal situation become better.

President R. H. Crossfield, of Transylvania College and the College of the Bible, recently declined a call from the International Y. M. C. A. Committee to do "Y" work in Europe.

The Beechmont Baptist church in Jefferson county has passed resolutions condemning H. Hovey Taylor, of Murray, and demanding that he resign as Moderator of the Kentucky Baptist. The resolutions cite the disloyal, unpatriotic remarks of Taylor. On account of the cold weather and the scarcity of fuel, there was no union service Sunday night, as had been announced, and there will be no prayer meetings this week. The pastors of the churches are doing a very wise thing in conserving all the coal they can.

Ministers of the Baptist, Presbyterian, Methodist, South, and Christian churches in Lancaster have sent a statement to the Garrard County Exemption Board declaring that registrants there have no right to claim exemption on religious grounds as members of their churches.

Rev. E. H. Bourland has resigned as pastor of the Christian church at Carlisle to accept the call of the Harrodsburg Christian church. Dr. Bourland assisted Dr. A. H. Haugh, of the Hustonville Christian church, in a protracted meeting last fall and he impressed the many who heard him as being a very strong preacher and a mighty good man.

One of the most important gatherings of the year among Baptists will be the sixth annual conference of the Southern Baptist Education Association, which will be held at Nashville, January 24 to 26. The purpose of this conference is to arouse and unify Southern Baptist sentiment and conviction on the subject of denominational education, and by the mutual help to seek to standardize and to increase the efficiency of all the Baptist educational institutions in the South.

DAVIS' STORE

Luther Howen and wife, of New Albany, are visiting his father, Mr. John Howen.

W. E. Pleasants, who is quite sick due to infirmities of old age, is not much better at this writing.

Wm. Anderson has sold his farm to C. H. Kerr. Possession will be given the first of February.

The country stores are trying to help in their weak way of complying with the government conservative fuel orders.

Om Turnbull and wife, of Oklahoma, and Ed Turnbull and wife, of Cincinnati, are visiting their mother, Mrs. John Hays, of this section.

King Winter has got the people guessing this section. As some of our best weather prophets are silent on weather predictions as ever day gets a little worse.

John Singleton has gone to Pineville to attend the examining trial of his brother, Rice Singleton, who shot and killed John McWay, the deputy sheriff of that place.

O. C. Boone, who was buried Sunday in the family burying ground, was generally known as "Curp" and had been in bad health for several years, but had been confined to his bed a short time. He was a sober young man and had a host of friends and was known far and wide for his honesty.

Taylor Adams and his son, Cletus Adams, charged with kidnapping baby Lloyd Keet and also with conspiring to abduct C. A. Clement, a Springfield, Mo., jeweler, entered pleas of guilty in the circuit court there. Taylor Adams was sentenced to fifteen years in the penitentiary and Cletus Adams to ten years.

HUSTONVILLE

Coley Myers came near losing a team of work mules Tuesday morning while trying to ford the swollen creek near James Reid's.

Adams Bros. filled their small ice house last week with good ice which had been washed out on the banks.

Lee Logan has returned to his home at Birmingham, Ala., after a visit to his mother and sister here. Jack Gann and family have guests on stairs over V. B. Morse in the Ark until Gilmore Harton moves to the H. W. Leigh farm.

Miss Jessamine Davis and brother, Riley, of Lexington, were guests of Miss Bessie Riffe and brother, Horace Riffe during the holidays.

J. A. Johnson, off of the head of Carpenter's Creek, has rented the property on Douglas avenue, known as the Nail property and has moved to it.

E. McCormack came near freezing to death a few nights ago on his way home from Cincinnati. The heaters on the train could not be made to work.

Felix L. Gust, of Tulsa, Okla., an oil magnate, was in our midst last Friday from Liberty, where he had been in interest of oil. He will probably return here in the spring.

The Cumberland Grocery Company's large truck came down from Junction City one day last week and took a load of furniture to Woodford county for Mr. and Mrs. Leslie Fads.

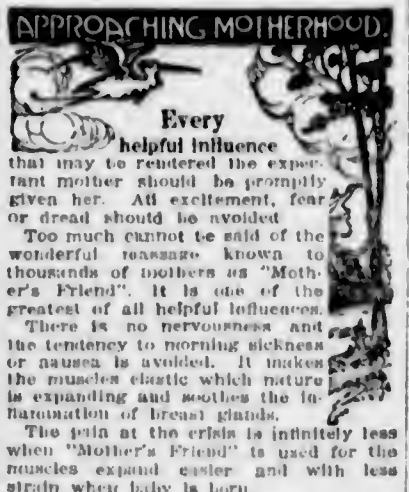

Liberty has not had any mail service from the railroad from Friday to Tuesday night. J. W. Brown, the Fork mail carrier came through Wednesday morning for the first time since Friday.

Eleven coaches loaded with "Sammons" for Hattiesburg, Miss., passed over the Q. & C. Wednesday morning. The train was side-tracked at McKinney and the boys all got off to get some water.

Miss Lula Edgington is some better, but her condition is critical. Her brother, Lee Edgington, of Colorado, has been wired to come, but to this time no word has been received from him.

Ernest Deann, a Major's orderly, of Camp Taylor, was in our city a few days ago looking well and hearty and says he likes the army life fine so far. He was on a visit to his grandfather, Oliver G. Tomblis, of Huttchertown section. His duty he said was to take care of his Major's and his own horse at all times and places. He spoke of how amusing it was to see some of the young soldiers being taught how to properly ride a horse. Especially some of the thoroughbreds. First they are taught to ride bare-back, then with saddle without any stirrups and then later with them and spurs without any wheels in them at all times.

Picture shows at Elizabethtown have closed on account of weather and war.

"Mother's Friend" is entirely safe and may be used by your druggist. Write the Bradford Regulator Co., Dept. A, 200 Lamar Building, Atlanta, Ga., for their interesting book, "Motherhood and the Baby." They will send it to you without charge, and you will find it very helpful. Years of use by thousands of women prove beyond all doubt that "Mother's Friend" is the greatest aid to nature. It certainly should be used by every expectant mother for she should do everything in her power to help nature in her work.

LIKE AN ELECTRIC

BUTTON ON TOES

Tells Why A Corn Is So Painful And Says Cutting Makes Them Grow

Press an electric button and you form a corn at with a live wire which runs the bell. When your shoes press against your feet, the sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freestone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, roots and all, without pain. This drug freestone is harmless and never inflames or even irritates the surrounding skin. It

With the pun-Germans in the political ascendancy in Germany there are serious strikes in Austria. More than 100,000 workmen have quit work in the vicinity of Vienna as a protest against Germanism and in favor of peace. The Vienna correspondent of one German newspaper says the Austrian strike movement demands a speedy peace with Russia and has grown too strong "to be stemmed by force."

A Williamstown, Mass., dispatch says: Dr. Harry Garfield's home, in Williamstown, is being kept warm and comfortable despite the fact that neighbors and friends are unable to buy coal except in small quantities. Just how much coal Dr. Garfield has on hand can not be learned.

The deepest oil well in the world, at Healdsville, Pa., costs over \$500,000, has been abandoned as a failure.

For a Corn-Pooling Picnic, Use "Gets-It"

Pain Eases at Once, Corn Just Dies! Do your corn-ridding easily, with a smile—the banana-peel way. That's the "Gets-It" way—the only way—your corn or callus comes off complete as though it were dead and gone.

"Gets-It" has cured more corns than all other remedies combined. It is as sure as the sun, and as safe as water. Used by millions of people, it will remove any corn or callus. Wear those new stylish shoes or pumps if you want to go ahead and dance. Demand "Gets-It"—throw substitutes back on the counter! See it all you need pay at any drug store, or it will be sent direct by Dr. Lawrence & Co., Chicago, Ill.

Sold in Stanford and recommended as the world's best corn remedy by The Penny Drug Store.

Mrs. J. L. B. Coffey is visiting friends in Frankfort.
Mrs. H. D. Newland was down from Crab Orchard Saturday.
Ed Turnbull, of Cincinnati, is visiting relatives in the East End.
Sam Raines, of New Castle, Ind., spent several days here with old friends.

Miss Mae Phelps, of Richmond, arrived Saturday to be the guest of Mrs. R. C. Hocker.

Miss Frances Green, of Harrodsburg, has been visiting Mrs. Mary Lee Givens, in the Hubble section.
Mr. Wyatt Smith, the well-known Bowling Green, spent one of his shoulders last week and broke one of his shoulders.

Mrs. Olla Scott, who has been with her sister, Mrs. E. L. Reinhart, returned to Louisville Saturday afternoon.

Col. S. T. Harris is convalescing from a spell of a few days' illness and his legion of friends are glad to know it.

Miss Lella Mae Smith and John Linton and "Shorts" Linn, of this city, have been guests of Mrs. Nance Hunn.

James and W. D. Edmiston, who manage the popular Crab Orchard Inn of Edmiston Bros., were in the city Monday.

Mr. James W. Williams, who is ill with pneumonia, spent a poor night, but his physician thinks his condition is no worse.

Mrs. J. W. Jones of Crab Orchard, is the guest of Mrs. Belle Halderman at her home on Third street.

Sunday's Courier-Journal, "I do not want to miss a single copy of the Interior Journal, so send me a check for another year," writes Mr. U. D. Simson, of Lancaster.

Mr. and Mrs. John Charles Osborne, of Knoxville, who have been with the Misses Warren for several days, left Monday for their home.

News comes from Sulphur, Okla., that Miss Belle Root, formerly of this city, had the misfortune to lose her baby, one of her twins.

Miss Rurhette McKenna and children are spending several days at their old home on Mt. Vernon. Mr. McKenna went with them Sunday and returned that evening.

The Current Events Club will postpone its January meeting until February on account of the bad weather, the president, Mrs. J. C. Hays, informs this paper.

"My daily paper, the Western Recorder, the Mt. Vernon Signal and several other papers keep me really busy reading, but I must have the Interior Journal another year," writes Rev. A. J. Pike from Brookhead, as he encloses his check for \$4.50.

Mrs. J. T. Embry received a cablegram Monday saying that her son, Wesley Embry, had arrived in London and that the trip over was a very enjoyable and satisfactory one.

Mr. Embry will do field duty for Uncle Sam and is just as sure to make good as the "Sammy" are to make the stuffing out of the Huns.

Mrs. J. S. Campbell is threatened with pneumonia.

The aged Mr. James Farmer is ill with pneumonia at the Campbell Hotel.

Mr. D. B. Morris and family have moved into the home on Danville avenue he recently bought of George Crawford.

Mrs. G. Fred Gooch and son, Fred James Gooch, of McKinney, went to Berea this morning to be with Mrs. Woodie Jones during a severe operation.

Capt. James Dillion, who has been spending a few days with his mother at London before leaving for France, passed back to Hattiesburg this morning. His cousin, Walter W. Saunders was at the depot to bid him goodbye.

DEAD AFTER A LONG ILLNESS

Oliver Carpenter Boone, aged 40, died at his home, the old C. W. Boone place near Maywood, Friday night about 9 o'clock after a long illness of consumption. Mr. Boone was never very strong, but being an industrious nature, he put in every day at work that he could. He was a scholar, gentlemanly fellow and had many friends who regret that he has been taken from them. The burial occurred in the home burying ground Sunday morning at 11 o'clock in the presence of a large number of neighbors and friends who had gathered to show their respect and good feeling for the excellent man and citizen.

ARE YOUR SEWERS CLOGGED?

The bowels are the sewerage system of the body. You can well imagine the result when they are stopped up as in the case of constipation. As a purgative you will find Chamberlain's Tablets excellent. They are mild and gentle in their action. They also improve the digestion.

A Knoxville dispatch says: Between 10,000 and 12,000 miners worked Sunday with the result that the nation's coal supply was increased 400 cars. The men have agreed to work ten hours a day instead of eight.

As a variation on the nonrefillable bottle, a New York man has invented attachments for ordinary bottles that prevent their contents being poured out if they have been refilled.

How's this?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous Surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

EXECUTOR'S SALE

The undersigned executors will, on **TUESDAY, FEBRUARY 5, 1918**, beginning at 10 o'clock on the premises of the late John Taylor, about two miles south of Gravel Switch, offer for sale the following property: The farm on which the late John Taylor lived at the time of his death, consisting of about 595 acres. The farm is located on the Rolling Fork and a considerable portion of it is fine bottom land, and the whole of the remainder is in grass and timber and is practically virgin soil, susceptible to cultivation and well adapted to tobacco, hemp and corn. The farm is located on the Gravel Switch and Caney Creek turnpike and is well watered. The improvements are good, consisting of a splendid two-story eight-room dwelling, three excellent stock barns, one tobacco barn, two tenant houses and other necessary outbuildings. The fencing is all in fine condition. There is also on the farm about 250 acres of first-class oak, walnut and other hardwood timber. Said timber is a part of a virgin forest and there are five or six carloads of black walnut alone. The farm will be offered in three tracts and then as a whole and the best price accepted. Possession of the land will be given when the terms of sale are complied with. Said executors will also offer for sale at the same time and place a quantity of farming implements and household and kitchen furniture.

TERMS: Said land will be sold for one-third cash, balance in two equal installments, due in one and two years with interest from date and lien retained on land to secure the deferred payments. Personalty will be sold as follows: Sums of \$10 and under cash; over that amount,

MEN

This cold weather demands the warm garments, and one of the most sensible investments that can be made now is the purchase of an Overcoat or a Mackinaw at our present old LOW PRICES.

ROBINSON'S

LAND, STOCK AND CROP

T. A. Brent sold to B. P. Martin 14 60-pound shots at 16c.
T. W. Jones has sold a number of sheep lately at \$15 per head.
W. L. Neal bought of J. D. Austin a two-year-old mule for \$175.
C. C. Withers sold to O. P. Huffman four 750-pound butcher cattle at 8c.

Edwards & Thompson, of Crab Orchard, sold at Richmond a bunch of cattle at 6 to 10c.

Robert H. Murre sold his farm of 133 acres in Anderson county to Cal P. Snider at \$165.

Charles Green, of Cornishville, Mercer county, sold a 550-pound hog to G. C. Green, for \$75.50.

Paul Finch bought in Madison county a pair of mare mules for \$125 and a pair of horse mules for \$100.

England is dealing sternly with those who violate food regulations. Arthur Hole, a merchant, was fined \$7,000 in Bow Street court for selling potatoes at a higher price than that fixed by the food controller.

Wholesale prices for storage creamery butter at New York and Chicago were fixed at 47 and 45 1-2 cents by the Food Administrator at Washington. Corresponding prices are expected to rule throughout the country.

At the sale of the racing stock belonging to James W. Corrigan at Lexington 9 four-year-olds, brought \$15,800; twenty-four three-year-olds \$24,359; twenty-seven two-year-olds, \$52,125; twenty-three yearlings, \$18,725; six stallions, \$11,000; fifty six mares \$71,825; total, \$227,125.

CINCINNATI STOCK MARKETS

SAUFLEY

Mr. Bailey Saufley, who has been away for some time is back in his home.

Mr. B. C. Lair has stopped his school a few days on account of cold weather.

Mr. James Miller died suddenly Saturday and was buried at Sugar Loaf graveyard Sunday.

Miss Laura Floyd, of Stanford, was visiting her sister, Mrs. Sam Boone, a few days last week.

Mr. Sam Boone has been with his father, Mr. J. H. Boone, who has been very ill for a few days.

Mr. Jesse Bourne and family, of Alum Springs, have moved to the place they bought from Mrs. Susie Adams.

Mr. and Mrs. Sam Boone and little son, James, spent Sunday with their parents, Mr. and Mrs. M. C. Floyd, of Stanford.

Mr. John Lewis, who has been very low for some time died January 6th, and was buried at Fairview church. He is survived by his wife and seven children. He was a member of the Fairview Baptist church and was a good Christian man and neighbor. Much sympathy goes out to his family in their sorrow. Services were conducted by Mr. J. C. McClary.

GREEN BRIAR

Mrs. John Leach is very ill. Miss Edna Munsie is some better. Miss John Privett has been visiting Mrs. Ida Gilmore.

Mrs. Ella Curtis spent Wednesday with Mrs. George Reynolds.

Mr. Johnson has dismissed the Green Briar school for two weeks. Mr. Jesse Privett took Mr. Bud Sims' vacation to Morehead last week.

Born to the wife of Harvey Hopkins, a girl. She has been named Myrtle Bell.

Rev. Godbey has been unable to fill his appointments at Pleasant Point for several Sunday on account of the bad weather.

Miss Junetta Gilmore is going away the 28th, to finish her education. She will leave many here, who regret to see her leave. She has been a great help to the Pleasant Point church since she has been here.

MORE SHEEP—MORE WOOL
Realizing the great shortage of sheep, not only in Kentucky but America, and further acknowledging the imperative need and crying demand for a greatly increased supply of meat, wool and hides, especially during the existing conditions which now cover the entire world, a call is hereby made to the farmers and others interested in the sheep industry in this State to meet at the Phoenix Hotel, Lexington, Tuesday, January 29, 1918 at 1:30 for the purpose of defining the necessary action toward the increased production of sheep and wool in this State and to formulate plans to further protect and stimulate this great industry. This means you. Come if you are interested. Everybody invited.—M. S. Cohen, Commissioner of Agriculture.

STANFORD DRESSMAKER
DOING HER BIT

"Since I was a child, I have suffered with stomach trouble and gastric attacks. Doctors could only give me temporary relief. A lady I sewed for told me of having been cured of similar trouble by taking Mayr's Wonderful Remedy. The first dose proved to me that it would cure me and it has. I am glad to recommend it to other sufferers." It is simple, harmless preparation that removes catarrhal mucus from the intestinal tract and kills the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Lincoln Pharmacy and Penny Drug Store. 11

Christmas gifts for the expeditionary forces aggregated 650 tons. Hundreds of thousands of pounds of turkey, purchased in eastern markets and refrigerated on the ships, together with great quantities of cranberries, sweet potatoes, and mince-meat went to the forces overseas. In the United States every camp was supplied with fresh turkey and the usual Christmas accessories.

IN FIVE MINUTES! NO INDIGESTION, GAS OR SOUR, ACID STOMACH

The Moment "Pape's Dispepsin" Reaches The Stomach All Distress Goes

"Really does" put upset stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness due to acid fermentation in five minutes—that—that—that—makes Pape's Dispepsin the largest selling stomach antacid and regulator in the world. If what you eat ferments and turns sour, you heave gas and eructate undigested food or water; head is dizzy and aches; breath foul; tongue coated; your insides filled with indigestible waste, remember the moment "Pape's Dispepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost miraculous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Dispepsin is worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest antacid for the stomach in the world. It

TAG SHOVEL DAY JANUARY 30

Tag-Your-Shovel Day is set for Jan. 30th, when it is expected that school children of the State will tag the coal shovels of every home, thus placing a constant reminder before the family that one of the greatest services we can render towards winning the war is conserving fuel. I have received from the Department of Agriculture at Frankfort tags to be tied to coal shovels of every home in Lincoln county. The teachers are asked to organize their pupils for this duty. Teachers, I am calling on you for the highest order of patriotic service because, if you were not patriotic and lover of liberty and children, you would not be in the school work. I also have blanks for taking an agricultural survey of our county. The government has called upon us to do this work. I am sure that you will enter heartily and efficiently into the work. We are expecting to make this a most valuable piece of work to the government that has been done in the State.—G. Singleton, Supt.

WHAT SHOVEL TAGS WILL DO

What could be accomplished if Shovel Tag day, January 30, is generally observed is figured out by H. Marion, of the Department of Education, who said that 450,000 tags have been sent out by the department for school children to tie on coal shovels, as a reminder to save a shovelful a day. Figuring conservatively that each State would send out as many, it would be a total of 22,500,000 shovels tagged and if 10 pounds of coal a day were saved by each shovel, the aggregate saving in coal would be 225,000,000 pounds daily, or 2,812,000 bushels, or 2,812 1/2 cars a day. In four months or 120 days this would amount to a saving in coal tonnage and transportation facilities of 337,500 cars, a solid train of coal 3,375 miles long, reaching as far as from New York to San Francisco and back to Salt Lake City.

SOON OVER HIS COLD

Everyone speaks well of Chamberlain's Cough Remedy after having used it. Mrs. George Lewis, Pittsfield, N. Y., has this to say regarding it: "Last winter my little boy, five years old, was sick with a cold for two or three weeks. I doctored him and used various cough medicines but nothing did him much good until I began using Chamberlain's Cough Remedy. He then improved rapidly and in a few days was over his cold."

Federal authorities, who have been conducting an investigation in Kentucky during the last week, obtained information there are 7,000 cars of coal on the Chesapeake & Ohio railroad and approximately 3,000 cars on the Louisville & Nashville railroad scattered in yards, on route to destination north of the Ohio river.

A squash vine in the garden of D. G. True, Windsor, Me., grew twenty feet long the ground, when it caught on a drooping branch of an apple tree, climbed it and developed a 27-pound squash eighteen feet from the ground.
